

## THE MANHATTAN RUSH.

## Goldfield People Start for the New Excitement.

GOLDFIELD, Nevada, January 6.—Manhattan still appears to be the mecca for the fortune hunter.

Daily many are leaving for the scene of the new excitement.

On all sides may be heard the query: "When are you going to Manhattan? What! are you really not going? Surely you are going later!"

Among the gambling element the exodus is mostly noticed. In the mechanical trades, particularly among the carpenters, many familiar faces are missing. Even among the brokers and the mercantile people there are some who have already picked up stakes, while others are planning.

H. D. McMasters, a broker, intends leaving as soon as the weather moderates. James Kain, another broker, left several days ago. Sam Bayles, late of the Hoffman bar, accompanied by Harry Johnson, who left a position in the Elite saloon, started on their journey last evening. Jack Hamill, restaurateur of the Frisco fame, is off to start a tent eating house. One of the Grant brothers of the Palace is on his way with a complete saloon outfit. He intends building immediately. Patrick Wwyer, an artist, is spinning the little bell and dealing cards from the little steel box, is off with a rush.

Mr. and Mrs. Firstbrook, quiet sedate residents on Franklin street, have acquired a slight touch of the fever and yesterday left with a three-span mule team hauling three wagons with a complete lodging house outfit. Charlie Cassin, formerly of Carson & Ish, after making a hurried trip to Manhattan, bought seven lots in the coming metropolis. He returned to Goldfield yesterday and before leaving for San Francisco this morning said he intended buying a large stock of groceries and have them shipped direct to Manhattan with the intention of starting a store.

James Fowle of the Oberon restaurant returned from Manhattan last evening and gave out among his friends that he thought the camp was all that was represented. Though he did not visit all the mines he said he was under the impression that over twenty leases were in paying ore and that a bright future for the district was assured.

Reservations for five automobiles had been sent to Tonopah and Goldfield today by the railroad agent who is receiving many inquiries daily from people who are anxious to make the trip.

## New Train Wrecked.

The new mail train that was to reduce the time between San Francisco and New York, came to grief in Nevada.

Fast mail train No. 3 went into the ditch near Harney station last night at about 11 o'clock and several persons were injured, but no one seriously. Details of the affair were unobtainable at an early hour this morning on account of the wires of the railroad company being out of order.

The wrecking train was immediately sent out from Carlin and is now at work clearing the track. The cause of the wreck is not known. Who the injured are has not been learned. The train was in charge of conductor Noble with Engineer Church at the throttle.

It is rumored that the mail clerk sustained a broken shoulder blade. Doctors from Sparks and Winnemucca were dispatched to the scene of the disaster.

The wreck occurred near the scene of the late Harney disaster in which two people were killed and many injured.—Journal.

## Fixed Wages.

At a meeting of the miners held at the Clifford camp Monday night a scale of wages was agreed upon. The wage for surface work was fixed at \$4 per day, tunnel workers will get \$1.50 and shaftmen will be paid \$5 per day.—Tonopah Sun.

## Gone to California.

Mrs. George Thaxter, another of Mrs. Fannie Davis, has departed for Los Angeles where she will reside in the future with her son Geo. C. Thaxter, formerly of this city.

## Serious Charge

RENO, Jan. 6.—Matthew Alvario, aged 70 years, an old Spaniard, who has been making Reno his home for many years, was arrested last night upon a charge of attempting to criminally assault an 8 year-old girl of a neighboring family. The old man cannot speak English, and protests that he is innocent of any crime. The girl tells a different story.

## BOARD OF PARDONS.

## Work Concluded With No More Pardons Issued.

The State Board of Pardons, which was in session the best part of last week concluded its work yesterday. Only two pardons were granted during the term and both were short termers. The Regan case and the Autorecha cases are both in the hands of the Board and they will make a decision later.

Attorney Keith came before the Board in the morning, applying for the continuance of the O'Connor and Williams cases to the July term. Granted.

The morning was consumed with argument by P. A. McCarran in the case of two Greeks, Kales and Apostolus. The application was denied.

Attorney for applicants was notified that if affidavits presented are true, complaining witnesses were to be prosecuted for perjury. If they are convicted of perjury his application can be presented again to the board without delay.

The Angal case was called and the pardon denied with provision that it may be called again next term.

The Graham pardon was denied. Neubert was committed to one year and six months.

The Smith case was continued until the July term.

## Will be Dismissed.

WASHINGTON, D. C., Jan. 6.—The findings of the courtmartial which tried Tremor Coffin of the United States Naval Academy, a Carson City boy, on the charge of hazing, has been received by the department. It is understood the verdict is dismissal from the service.

## Church Services

Methodist—11 a. m., "God's School of Christian Service." 7 p. m., "Sermons, Souls and Seasons."

Presbyterian—Communion service at 11 a. m. Evening sermon at 7:30 p. m. Sunday school at noon. Christian Endeavor at 6:30 p. m.

P. G. Nelson of Gardnerville is stopping at the Briggs.

The tax rate of Nye County has been fixed at \$2.55 for 1906. The rate at Tonopah will be \$2.75.

The estate of the late Thomas E. Haydon of Reno is valued at between \$150,000 and \$200,000.

Major Duncan B. Harrison fell on the ice at Tonopah a few days ago and injured the base of his spine. He is suffering from a partial paralysis and is in a serious condition.

There are thirty of the most pretty and talented girls in the chorus of "The Jolly Girls" company which will be seen at the opera house on the evening of the 10th inst. Their costumes are said to have cost \$5,000.

Our show window is full of Angora Tams and wool and felt children hats. None sold less than 75c to \$1.50. The entire lot while they last to you at 40 CENTS EACH.

## THE EMPORIUM.

Two insurance companies have refused to pay the losses on the Murray property at Sparks, because the Southern Pacific Company's high fence caused the fire department to run an extra mile to the fire.

## NEW INCORPORATION.

## Governor Sparks Places Alamo Farm in Enterprise.

The Plantation Livestock Breeding Company, a corporation designed to take over the Alamo stock farm of Governor John Sparks was incorporated this afternoon under the laws of Nevada.

The company is composed of John Sparks, Richard Kirman, H. G. Humphrey and F. E. Humphrey, all prominent capitalists of this city who have extensive holdings in various lines.

The company has a capital stock of \$100,000 and shares having a par value of \$1 each.

None of the incorporators could be found this afternoon but it is understood that the new incorporation is to take over the business of the Alamo Stock Farm at once.

No special change in the administration of affairs is expected to be made but the company will continue to make necessary improvements and will enlarge the business as fast as it will admit.

The Alamo stock farm under the management of Governor Sparks has grown to large proportions. The finest Hereford stock bred in America is sold there and shipments of cattle are made to all parts of the world.—Gazette.

## THE JOLLY GIRLS.

## Star Attraction to be Presented on the Tenth.

It is with pardonable pride that Manager Meder of the opera house announces the engagement at his house next Wednesday evening, Jan. 10th of "The Jolly Girls" Burlesques. It is claimed that the organization is one of the most meritorious of the many that will visit this city during the current season and that nothing has been stunted looking toward it being equal to the modern musical comedy company in every respect. There is a notable collection of young and pretty girls, thirty in all, who have been provided with gowns modeled after the latest Paris fashions at a cost of over five thousand dollars, and of the richest material.

The scenery has all been built by expert scenic artists and is really magnificent while the roster of the company contains such well known entertainers as Sam Sidman, the comedian who is said to be able to make a mummy laugh. George T. Davis and James Connor who take excellent care of the comedy work in the two burlesques. The first of these, an honest politician, is a pleasant satire, full of humorous action and containing a choice collection of the latest and best music a feature of which is "It Makes Me Think of Home Sweet Home" which is sung by the entire company. The closing skit, "A Tempest in Tea House" is replete with fun and melody and gives each member of the company a chance to display his or her abilities in the matter of provoking fun and winning applause in vocal efforts.

## Dentistry

Dr. Frank McClasky will have charge of Dr. W. H. Cavell's office during the absence of the latter.

## SHIPPING ORE.

## Old Mining Section South of Carson is in Line.

Charley Taylor, who has been under a doctors care in this city for a couple of weeks received some pretty good news from his mines out south. He is interested in a copper claim near the Mountain House and a lease was given to a couple miners a few weeks back. The new men started a shaft on the ledge and word came in a day or so ago that they had hit it rich. Assays from the samples sent to town show over one hundred and fifty dollars to the ton. The ore contains 25 per cent copper and the rest of the values lie in gold and silver. They have taken out six or seven tons of this quality rock, and the samples sent in last night runs even higher, as there is more gold in the latest find.

The mine is situated about a mile from Mountain House and not far from the once famous Willard & McDonald claim. In this property over two hundred thousand dollars was taken out by two old men and they drank it up about as fast as the mill could turn the bullion out. The mill was a two stamp affair and the mortar and the stamps were about the size of an ordinary hand mortar and pestle, but the returns from the milling was something wonderful. It was not uncommon to "hang" up the stamps in order to clean out the battery, as the gold was so heavy that the screen would clog and the amalgam hang on to everything. The records of the Carson mint show over one hundred thousand dollars from the little mill, and it is the general belief that more than that amount was stolen during the working of the claim.

The original owners followed the rich seams in a dozen directions, but there was never any semblance of real mining in their ground. When the rich seam gave out the owners closed up the affair and since that time little or nothing has been done at the mine.

The new find made by Taylor will attract more attention and as soon as the ore is taken out it will be shipped to the smelters. It will not take many tons of this kind of ore to put all hands on velvet and the old camp will again flourish.

## Filled the Ice House

Yesterday the last contract for ice was finished in this city. The State Orphans' Home was the last on the list and Harry Millard finished the contract. The ice is the finest cut in many seasons, averaging over eight inches and as clear as a crystal. All of the saloons have received their full allotment and many private families have taken advantage of the long run of cold weather and filled small houses. The cold weather is good for something after all.

## A Lively Shakeup

GOLDFIELD, January 6.—Mike Maher, a miner employed on a claim near Diamondfield came near losing his life a few days ago. He placed five holes in a drift from a shaft where he was working and filling them with giant powder lighted them and started for the surface. When near the top the ladder gave way and he was thrown to the bottom of the shaft about the same time the powder went off. He was terribly bruised and cut, but managed to crawl out of the mine and make his way to assistance. The doctors say that unless blood poison sets in he will recover.

## Want to Celebrate

The old Comstock is after the next big celebration and is starting a movement for the glorious Fourth of July. As Carson and Reno have had their turn at the doing on the big day and it is only proper that Virginia City comes into her own. This city will stand in with the people on the hill and help boost and boom for the big time when the summer sun gets somewhat warmer.

## Divorce by Default

RENO, Jan. 6.—Dr. Brougiere, the wealthy Newporter, who is suing his wife for a divorce, will doubtless be able to secure the mandate of one court by default, if he can prove residence in Reno for the past six months. The case comes up January 15th. Mrs. Brougiere retained counsel some time ago but thus far her attorneys have made no move.

George Dangberg came down from the valley yesterday.

Miss Anna Louise Ellis departs for California today, where she will resume her studies.
